Store Manager: Oversees the day-to-day operations, inventory management, and staff coor

Assistant Manager: Assists the store manager, especially in customer service and managing

Part-time Employees: Trained in crafting our beverages, ensuring hygiene standards, and providing excellent customer service.

Equipment & Technology

Commercial Juicers and Blenders: High-quality equipment guarantees the perfect texture and consistency of our drinks.

POS System: A modern point-of-sale system ensures smooth billing, inventory tracking, and customer data management.

Financial Projections

Financial projections offer a roadmap of expected financial performance, guiding our strategic decisions and investor communications.

Start-up Costs

The initial investment of \$150,000 encompasses:

Leasehold improvements: Setting up the store, interior design, signage, etc.

Equipment: Commercial juicers, blenders, POS system, etc.

Initial Inventory: Stocking up on organic ingredients, packaging materials, etc.

6-Month Financial Projections

Profit and Loss Forecast

With a projected \$500,000 in sales in the first year and considering the expense trends, we anticipate a positive profit margin.

Cash Flow Forecast

Given our projections, by month 6, we anticipate having a positive cash flow, with cumulative cash flow reaching approximately \$100,000.

Break-even Analysis

Considering our fixed and variable costs, Green Oasis is expected to reach its break-even point around month 8.

Assumptions

These projections are based on:

A timely store opening without unforeseen delays.

A consistent and steady growth in our customer base, aided by our marketing strategies.

Stable supplier costs and no unexpected macroeconomic downturns.

Exit Strategy

While our primary focus and vision for Green Oasis revolve around long-term growth and community engagement, we have considered exit strategies.

Selling the Business

One of the most straightforward exit strategies is to sell the business. Given our unique position in the market, we believe the business could attract a strategic buyer.

Harvesting

Another option is harvesting, wherein we continue the operation of Green Oasis without any external investment, focusing on sustainable growth.

IPO (Initial Public Offering)

While going public and listing Green Oasis on a stock exchange could be a potential exit strategy, it requires significant resources and regulatory compliance.
